

Again this year we will be cooperating with the Pediatric Orthopedic Society of India (POSI) in organizing another Outreach Continuing Education Course in Coimbatore in Southern India and Sri Lanka. This is a course of the Children's Orthopaedics in Underdeveloped Regions (COUR).

Here are the dates for the courses:

The dates for the two day course in Coimbatore are Saturday 23 October and Sunday 24 October and Tuesday 26 October in Sri Lanka. One will have to arrive in Delhi or another city in enough time on Friday to get a flight to Coimbatore which is in Southern India. The trip returning to the US will need to start Thursday 26 October. One can usually get back in one day to most US destinations. In the past others have traveled either a couple of days before or stayed later to do some sightseeing.

Last year there were four of us from POSNA myself, Andy Sullivan and Elizabeth Szalay who went. It was a great experience.

Please let me know if you might be interested.

The protocol for these courses is that the POSNA faculty pay their travel expenses to get to the host cities. Once there our local transportation, food and lodging expenses are provided by the local host organizations.

I hope that you will consider this opportunity to travel and teach. India is a beautiful city with friendly people.

Let me know if I can provide any more information.
